

AMENDMENTS TO THE CLAIMS

Please amend claims as provided in the following list of claims:

Claim 1 (currently amended): A wireless telephone headset system, comprising:

- a. a headband having two distal ends;
- b. a telephone control ~~pivotaly connected to one of said distal ends of said headband; and having a speaker and telephone call control;~~
- c. ~~a microphone pivotaly connected to said telephone control; a rotatable connection of said headband with said telephone control at a distal end of said headband, said rotatable connection on a vertical axis of said headband and said telephone control at said distal end of said headband, said telephone control and said headband rotatably connected with said rotatable connection and rotatable about said vertical axis to a head-worn configuration and a hand held configuration; and~~
- d. a microphone connected with said telephone control;

~~wherein said telephone control and said headband are pivotaly rotatable from a head-worn configuration to a hand-held configuration of said cordless telephone headset system wherein said headband and said telephone control are each rotatable about said vertical axis to a non-head worn configuration of said headband to the head of a user and to a hand-held configuration of said headband and said telephone control.~~

Claim 2 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claim 1, wherein said ~~telephone control~~ telephone call control comprises a dial pad-key pad.

Claim 3 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claim 1, wherein said telephone control and said headband is adjustably connected ~~are rotatable to said one of said distal ends within about less than~~ 180 degrees of rotation ~~of said telephone control.~~

Claim 4 (currently amended): A ~~eordless-wireless~~ telephone headset system as described in claim 1, wherein said telephone control and said headband ~~is adjustably connected~~ are rotatable ~~to said one of said distal ends within less than 360 degrees of rotation of said telephone control.~~

Claim 5 (canceled)

Claim 6 (currently amended): A ~~eordless-wireless~~ telephone headset system as described in claim 2, further comprising an earpiece adjacent said one of said distal ends of said headband, wherein said ~~distal~~ pad-key pad is transversely adjacent said earpiece.

Claim 7 (currently amended): A ~~eordless-wireless~~ telephone headset system as described in claim 1, further comprising a microphone boom having two distal ends, wherein said microphone is positioned adjacent one of said distal ends of said boom, and wherein a second distal end of said microphone boom is ~~pivotaly-rotatably~~ connected to said phone control.

Claim 8 (canceled)

Claim 9 (canceled)

Claim 10 (canceled)

Claim 11 (canceled)

Claim 12 (currently amended): A ~~eordless-wireless~~ telephone headset system as described in claim 7, wherein said microphone boom is configured to accommodate both a user left ear configuration and a user right ear configuration.

Claim 13 (canceled)

Claim 14 (canceled)

Claim 15 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claim 12, wherein said telephone control and said headband are[[is]] configured to accommodate both a user left ear configuration and a user right ear configuration.

Claim 16 (canceled)

Claim 17 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claim 7, wherein said microphone boom comprises a mute switch.

Claim 18 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claim 17, wherein said microphone boom is adjustably connected to said telephone control to accommodate a mute rotation angle and wherein said mute switch is responsive to said microphone boom at said mute rotation angle.

Claim 19 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claim 2, wherein said key pad comprises further comprising a plurality of input elements ~~positionally associated with said dial pad.~~

Claim 20 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claim 1, wherein said telephone control and said headband are[[is]] configured to accommodate a plurality of user configurations.

Claim 21 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claim 1, wherein said telephone control and said headband are[[is]] configured to accommodate both a user left ear configuration and a user right ear configuration.

Claim 22 (canceled)

Claim 23 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claims 20-~~21 or 22~~ or 21, wherein said telephone control and said headband are ~~is pivotally configured rotatable~~ to

accommodate a user configuration within a corresponding ~~telephone control~~ rotation of zero to at least 90 degrees.

Claim 24 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claim 1, wherein said telephone control and said headband are ~~is adjustably connected to said one of said distal ends-rotatable~~ to accommodate an aligned configuration of said telephone control with said headband and a plurality of offset configurations of said telephone control with said headband.

Claim 25 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claim 1, further comprising a ~~power source-a battery~~ positioned adjacent a second distal end of said headband.

Claim 26 (canceled)

Claim 27 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claim 1, further comprising a base correspondingly configured to at least a portion of said telephone control and at least a portion of a second distal end of said headband.

Claim 28 (canceled)

Claim 29 (canceled)

Claim 30 (canceled)

Claim 31 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claim 27, wherein said base comprises at least one charge terminal correspondingly configured to at least a portion of said second distal end of said headband.

Claim 32 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claim 27, further comprising telephonic control circuitry responsive to said telephone control and said base, wherein said telephone control comprises at least a portion of said telephonic control circuitry.

Claim 33 (currently amended): A ~~cordless-wireless~~ telephone headset system as described in claim 27, wherein said base is configured for computer compatibility.

Claim 34 (canceled)

Claim 35 (currently amended): A ~~cordless-wireless~~ telephone headset, comprising:

- a. a headband having two distal ends; and
 - b. ~~a dial pad~~ a telephone control pivotally connected to one of said distal ends of said headband having a speaker and telephone call control;
 - c. a rotatable connection of said headband with said telephone control at a distal end of said headband, said rotatable connection on a vertical axis of said headband and said telephone control at said distal end of said headband, said telephone control and said headband rotatably connected with said rotatable connection and rotatable about said vertical axis to a head-worn configuration and a hand held configuration; and
 - d. a microphone connected with said telephone control;
- ~~wherein said telephone control and said headband are pivotally rotatable from a head-worn configuration to a hand-held configuration of said cordless telephone headset system wherein said~~
headband and said telephone control are each rotatable about said vertical axis to a non-head worn configuration of said headband to the head of a user and to a hand-held configuration of said headband and said telephone control.

Claim 36 (canceled)

Claim 37 (currently amended): A method of configuring a ~~cordless-wireless~~ telephone headset system for use, comprising the steps of:

- a. ~~pivotally rotating configuring one of a telephone control and a headband of said~~
wireless telephone headset system about a rotatable connection on a vertical axis of said telephone control and said headband at a distal end of said headband a telephone control
~~and a headband of said cordless telephone headset system to a user configuration~~

comprising a head-worn configuration and a hand held configuration, said telephone control having a speaker and a telephone call control; and

- b. configuring a microphone of said ~~eordless-wireless~~ telephone headset system corresponding to said user configuration;

wherein said user configuration comprises a hand-held configuration and said telephone control and said headband are pivotally rotatable to said hand-held configuration wherein a non-head worn configuration of said telephone control and said headband comprises a non-head worn configuration of said headband to the head of a user and a hand-held configuration of said headband and said telephone control.

Claim 38 (canceled)

Claim 39 (currently amended): A method of configuring a ~~eordless-wireless~~ telephone headset system as described in claim 37, wherein said step of configuring said microphone comprises ~~pivotaly-~~configuring-rotating said microphone.

Claim 40 (canceled)

Claim 41 (canceled)

Claim 42 (currently amended): A method of configuring a ~~eordless-wireless~~ telephone headset system as described in ~~claim 38~~claim 37, wherein said step of ~~pivotaly configuring-rotating~~ said telephone control comprises adjustably-rotating said telephone control to a user configuration within about less than 180 degrees of rotation of said telephone control.

Claim 43 (currently amended): A method of configuring a ~~eordless-wireless~~ telephone headset system as described in ~~claim 38~~claim 37, wherein said step of ~~pivotaly configuring-rotating~~ said telephone control comprises adjustably-rotating said telephone control to a user configuration within less than 360

degrees of rotation of said telephone control.

Claim 44 (canceled)

Claim 45 (canceled)

Claim 46 (canceled)

Claim 47 (currently amended): A method of configuring a ~~cordless-wireless~~ telephone headset system as described in claim 37, wherein said step of configuring said microphone comprises configuring a microphone boom of said ~~cordless-wireless~~ telephone headset system to accommodate ~~a user ear configuration~~ a user left ear configuration and a user right ear configuration.

Claim 48 (canceled)

Claim 49 (canceled)

Claim 50 (canceled)

Claim 51 (currently amended): A method of configuring a ~~cordless-wireless~~ telephone headset system as described in claim 39, wherein said step of ~~pivotal~~ configuring said microphone comprises adjustably rotating a microphone boom of said ~~cordless-wireless~~ telephone headset system to a mute rotation angle and further comprising the step of muting a communication through said ~~cordless-wireless~~ telephone headset system.

Claim 52 (currently amended): A method of configuring a ~~cordless-wireless~~ telephone headset system as described in claim 37, wherein said step of ~~configuring rotating said telephone control~~ comprises configuring rotating said telephone control to accommodate ~~a user ear configuration~~ a user left ear configuration and a user right ear configuration.

Claim 53 (canceled)

Claim 54 (currently amended): A method of configuring a ~~cordless~~wireless telephone headset system as described in ~~claims 52 or 53~~ claim 52, wherein said step of ~~pivotal~~ly configuring ~~rotating~~ said ~~telephone control~~ comprises ~~adjustably rotating said telephone control to a configuration corresponding to a telephone control rotation of zero to at least 90 degrees.~~

Claim 55 (canceled)

Claim 56 (canceled)

Claim 57 (canceled)

Claim 58 (canceled)

Claim 59 (canceled)

Claim 60 (currently amended): A method of configuring a ~~cordless~~wireless telephone headset system as described in ~~claim 59~~ claim 37, further comprising the step of charging a ~~power source~~ a battery positioned adjacent a second distal end of said headband.

Claim 61 (currently amended): A method of configuring a ~~cordless~~wireless telephone headset system as described in claim 37, further comprising the step of providing computer capability to said ~~cordless~~ wireless telephone headset system.

Claim 62 (currently amended): A method of configuring a ~~cordless~~wireless telephone headset system as described in claim 61, wherein said step of providing computer capability comprises enabling computer telephony capability for said telephone control and said base.

Claim 63 (currently amended): A method of configuring a ~~cordless~~wireless telephone headset for use, ~~comprising the step of~~ comprising the steps of ~~pivotal~~ly configuring a telephone control of said ~~cordless~~ telephone headset to provide a hand-held configuration of said ~~cordless~~ telephone headset and wherein

~~said telephone control and a headband of said cordless telephone headset are pivotally rotatable to said hand-held configuration~~

- a. rotating one of a telephone control and a headband of said wireless telephone headset system about a rotatable connection on a vertical axis of said telephone control and said headband at a distal end of said headband to a user configuration comprising a head-worn configuration and a hand held configuration, said telephone control having a speaker and a telephone call control; and
- b. configuring a microphone of said wireless telephone headset system corresponding to said user configuration;

wherein a non-head worn configuration of said telephone control and said headband comprises a non-head worn configuration of said headband to the head of a user and a hand-held configuration of said headband and said telephone control.

Claim 64 (canceled)

Claim 65 (canceled)

Claim 66 (canceled)

Claim 67 (canceled)

Claim 68 (canceled)
